WORK EXPERIENCE

Learning as a Trainee

QSpiders Noida-Software Development Training & Placement Institute   Duration of 6 months

- I joined Jspiders on 10 September 2022. My main objective to joining Jspiders was to enhance my technical and practical knowledge at an industrial level.

PERSONAL PROJECT

FIR Management System

- This was the first project of my life. Which was based on Java technology. And I completed this project in the final year of my graduation. It was a team project in which we were 3 team members. My main job was to develop the project application.

Library Management Systems

- This was my second project as well as minor project of MCA. This was also a team project in which my main task was to develop the entire project app. To develop which I used some core technologies in Java, Swing, AWT and MySQL database etc.

Other Activities

- As I have mentioned in my resume that I am interested in internet surfing. That's why I get inspired by the layout of many websites. And try to create them.

HOBBIES

- Traveling
- Internet Surfing
